 Nate Dickmeyer
 Institutional Research & Assessment
 August 25, 2013

For this study we followed all 3,216 new students from Fall 2005 for eight years. These students included new freshmen and transfers, regardless of their full/part-time status. We requested their enrollment and degree attainment from the National Clearinghouse for each of the sixteen semesters.

36% of the Fall 2005 New Student Cohort has Graduated

While the 8-year graduation rate from LaGuardia for this cohort is only 28.2%, counting students from the cohort who graduated anywhere, the rate is 35.9%. Figure 1 shows the distribution of students not currently attending and attending by degree attainment and location. For example, two students from the cohort have a LaGuardia degree, a degree from another two-year college and a degree from a four-year college (third bar from the left).

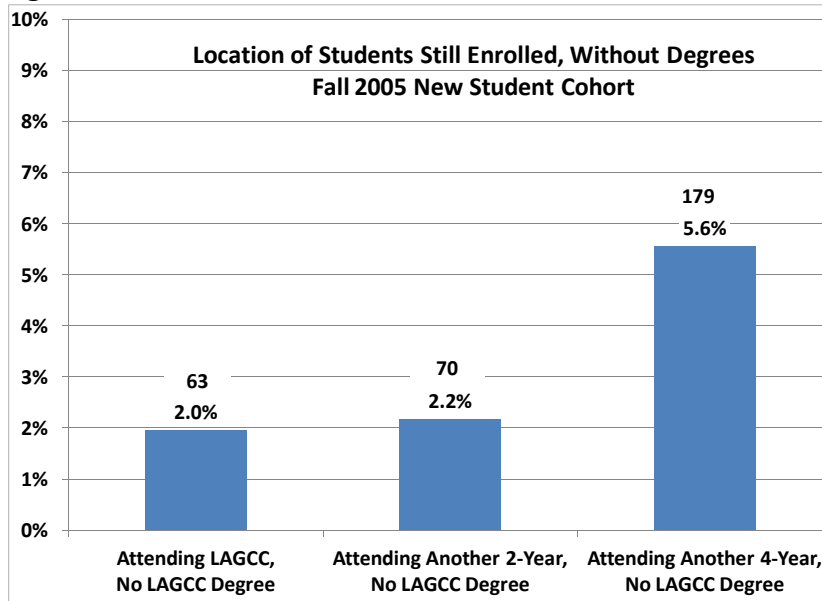

Figure 1

The Potential Cohort Graduation Rate is 46% (10% are still enrolled)

While only 2% of the cohort is still attending LaGuardia without a degree, nearly 8% are attending other institutions and have not yet attained a degree, as shown in Figure 2. Including those with degrees, 16% (503 students) were still attending an institution of higher education during the spring 2013 semester.

Figure 2

12% have Four-year Degrees

Figure 3

Potential Baccalaureate Graduation Rate is 23% (11% are still enrolled in four-year colleges with and without two-year degrees)

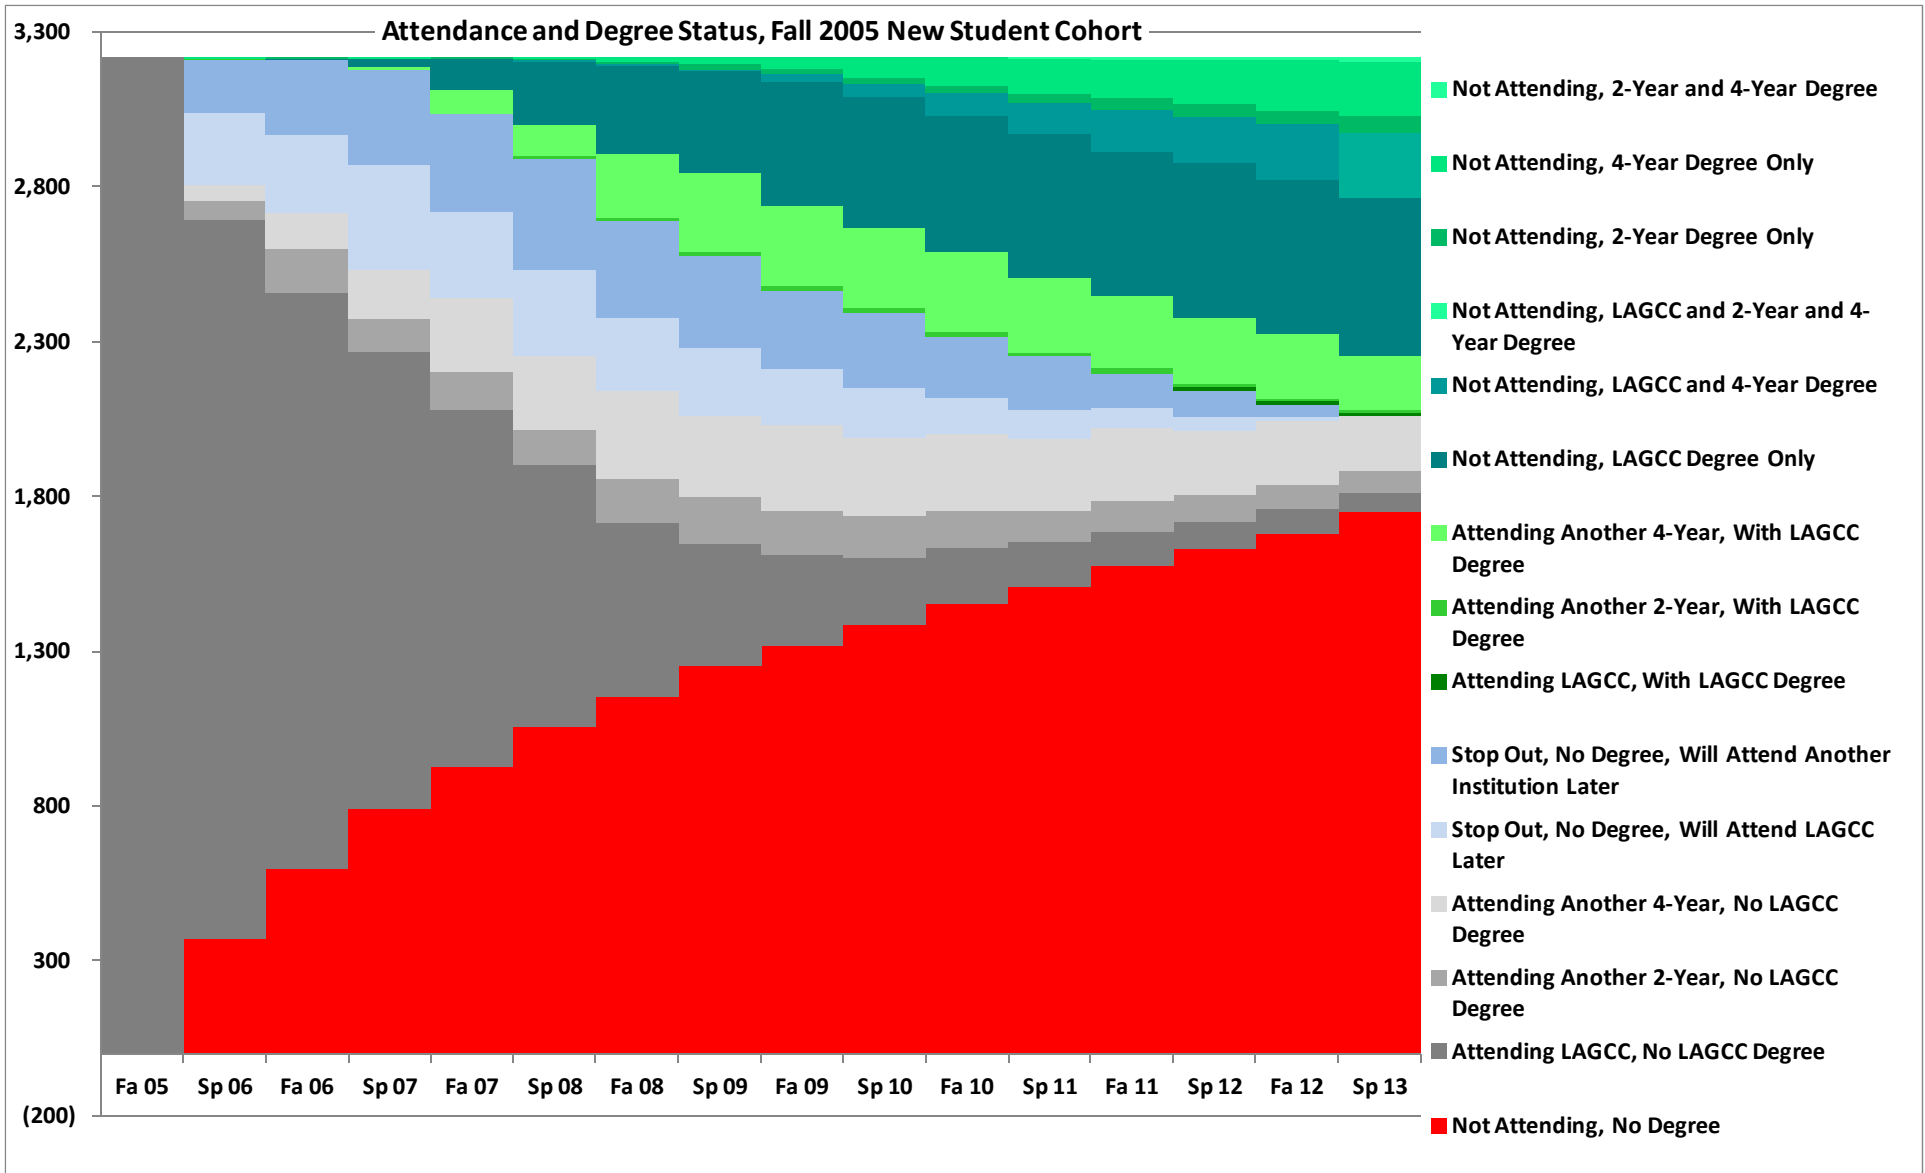

179 students from this cohort without LaGuardia degrees were still enrolled in 4-year programs during the spring 2013 semester, and 175 with LaGuardia degrees were enrolled in 4-year programs.

54% Are Not Enrolled and Have No Degree

This is the drop-out rate from higher education, not just LaGuardia. The 54% is made up of 11% who left after the 1st semester, 7% after the 2nd, 6% after the 3rd, 4% after the 4th and 5th, 3% after the 6th and 7th and 2% after the 8th through the 16th semesters. Students who returned to higher education after leaving (stop-outs) were not included (unless they return in the future).

The Full, Semester-by-Semester Distribution
